

Requirements Traceability Matrix Instructions

The Requirements Traceability Matrix (RTM) is used to document and track the project requirements from the proposal through the CMS Certification process.. The Contractor is responsible for maintaining the set of Baseline Requirements directly related to the configuration of the MES components. Additions, modifications, and deletions to these requirements post contract award shall be added and modified timely, with DMAS approval and a current version of the matrix shall be maintained at all times. The Contractor shall provide an initial RTM as part of its proposal per the instructions below. The RTM will be maintained in Excel format until or unless DMAS approves an alternate format.

Column	Instructions
Requirement ID	The unique identifier for the requirement as assigned by DMAS. This column shall not be modified by the Bidder.
Requirement	The statement of the requirement to which the Bidder must respond. This column shall not be modified by the Bidder.
Compliant?	The Bidder shall indicate "Y" (Yes) or "N" (No) as to whether their solution is compliant with the requirement.
Availability	The Contractor shall indicate one of the following:
	A = Functionality is currently operational
	B = Functionality is planned
	C = Functionality is not currently planned
Date	For Availability code "B" bidder shall provide the planned availability date
Proposal Mapping	The Bidder shall provide cross-reference to the location(s) of where compliance with each requirement is described in their proposal.

Technology Standards Requirements

Requirement ID	Requirement	Compliant?	Availability	Date	Proposal Mapping
OPSS-TECH-STND-001	All the artifacts developed as part of the proposed Solution shall be compliant with the CMS and HIPAA standards and requirements.				
OPSS-TECH-STND-002	The Solution shall use rules based, table driven modular, and reusable components.				
OPSS-TECH-STND-003	The Solution shall facilitate online, browser based web capabilities with no client component download(s) for all authorized end users including, but not limited to providers and members.				
OPSS-TECH-STND-004	The Solution shall support functionality to interface with multiple entities outside the MES for exchange of information.				
OPSS-TECH-STND-005	The Solution shall comply with all current and future HIPAA standard Transactions and Code Sets (TCS) in place or mandated by the Commonwealth and CMS.				
OPSS-TECH-STND-006	The Solution shall implement standard policies and practices to ensure the security and integrity of the information to be exchanged.				
OPSS-TECH-STND-007	The Solution shall provide notification to the ISS Contractor of all changes to application program interface (API) on a timely basis.				
OPSS-TECH-STND-008	The Solution shall provide standard and ad hoc reporting capabilities for all modules of the proposed solution which are accessed by Commonwealth end users and other stakeholders.				
OPSS-TECH-STND-009	The Solution shall meet the Federal reporting requirements and performance standards as defined by CMS and the CMS certification checklists.

Technology Standards Requirements

Requirement ID	Requirement	Compliant?	Availability	Date	Proposal Mapping
OPSS-TECH-STND-010	The Solution shall implement and support a reporting repository with Web based access by authorized end users, including the ability to extract data to be used with desktop applications.				
OPSS-TECH-STND-011	The Solution shall provide interoperability between the modules of the proposed solution and Commonwealth imaging and document management systems. All Commonwealth documents and images on any media type received or disseminated shall be accessible, stored, and indexed on the Enterprise Content Management system.				
OPSS-TECH-STND-012	The Solution shall allow users to select among several format types (e.g., PDF, Microsoft Excel, Microsoft Word) for any outputs produced. The output media types shall be role based or by individual end user(s).				
OPSS-TECH-STND-013	The Solution shall implement relevant standards including, but not limited to NIEM, CAQH-CORE, HL7, and HIPAA for data interchange.				
OPSS-TECH-STND-014	The Solution shall provide single sign-on (SSO) capability using Commonwealth standards for login and authentication. The Contractor's system shall include an end user authentication process that permits the end user to enter one (1) name and password to access multiple applications. This process authenticates the user for those applications they have access rights to and eliminates the need for further prompts when switching between applications during a session.				
OPSS-TECH-STND-015	The Solution shall process all inbound and outbound files at a frequency as defined by the Commonwealth.

Requirement ID	Requirement	Compliant?	Availability	Date	Proposal Mapping
OPSS-TECH-STND-016	The Solution shall support and monitor the processing of all transaction files and notify the Commonwealth of all transactions which have not been processed successfully.				
OPSS-TECH-STND-017	The Solution shall accept and apply interface data accurately 100% of the time.				
OPSS-TECH-STND-018	The Solution shall reconcile errors identified during the processing of any transaction file and reprocess partner transactions within the agreed upon SLA.				
OPSS-TECH-STND-019	The Solution shall comply with Commonwealth and Federal records management policies and retention schedules.				
OPSS-TECH-STND-020	The Solution shall ensure archived data is retrievable, formatted to match the original intake document, and shows the changes during processing.				
OPSS-TECH-STND-021	The Solution shall comply with all Commonwealth and Federal laws, grant requirements, rules, regulations, guidelines, policies, and procedures for destruction of records.				
OPSS-TECH-STND-022	The Solution shall retain all records for both paper and electronic claims as per the Commonwealth and Federal guidelines.				
OPSS-TECH-STND-023	The Solution shall comply with and align with Commonwealth Technology Standards.

Rules Engine Requirements

Requirement ID	Requirement	Compliant?	Availability	Date	Proposal Mapping
OPSS-RULE-EGN-001	The Contractor's Rules Engine shall meet MITA 3.0 standards by using COTS Business Rules Engine products using BPMN and BPEL methodologies.				
OPSS-RULE-EGN-002	The Contractor's Rules Engine shall allow integration with Identity Access Management products for several elevated user levels for business rules approvals.				
OPSS-RULE-EGN-003	The Contractor's provided workflow shall automate details for any rules creation/modification/deletion and scheduled auto deployment shall be explained.				
OPSS-RULE-EGN-004	The Contractor's Rules Engine shall provide a testing environment with dashboard drill downs using past production data to show how functionality/end result will change by the rule changes. This can be displayed in the dashboard by a graphical and columnar view for easy impact assessment by the business user.				
OPSS-RULE-EGN-005	The Contractor shall provide a Rules Engine Business Dictionary which includes data elements, definition, data size, meaning, description and its usage.				
OPSS-RULE-EGN-006	The Contractor's Rules Engine shall allow changes to be made to the valid values without bringing down the rules engine.				
OPSS-RULE-EGN-007	The Contractor's Rules Engine shall have tracking mechanisms to identify which rules are executed for the particular transactions.				
OPSS-RULE-EGN-008	The Contractor's Rules Engine shall be able to produce a report on rules passed or failed for all transactions.

Rules Engine Requirements

Requirement ID	Requirement	Compliant?	Availability	Date	Proposal Mapping
OPSS-RULE-EGN-009	The Contractor's Rules Engine shall send alerts to the appropriate resource if there is any issue in the rules engine.				
OPSS-RULE-EGN-010	The Contractor's Rules Engine shall allow logging to be turned ON or OFF.				
OPSS-RULE-EGN-011	The Contractor's Rules Engine shall provide a debugging tool to debug the rules execution.				
OPSS-RULE-EGN-012	The Contractor's Rules Engine shall allow rules to run sequentially and in parallel.				
OPSS-RULE-EGN-013	The Contractor's Rules Engine shall allow Individual rules testing features available.				
OPSS-RULE-EGN-014	The Contractor's Rules Engine shall include test data creation tools.				
OPSS-RULE-EGN-015	The Contractor's Rules Engine shall allow users to map JSON or XML documents as input data elements.				
OPSS-RULE-EGN-016	The Contractor's Rules Engine shall be easily accessed through Java or web services.				
OPSS-RULE-EGN-017	The Contractor's Rules Engine shall process high volume transactions and shall be scalable.				
OPSS-RULE-EGN-018	The Contractor's Rules Engine shall be able to support NoSQL or MongoDB.				
OPSS-RULE-EGN-019	Rules Editor shall allow the subject matter experts or technical resource to write the rules in the natural language.				
OPSS-RULE-EGN-020	The Contractor shall supply a dashboard to monitor the rules execution and its performance and statistics.

Manage Member Appeals Requirements

Requirement ID	Requirement	Compliant?	Availability	Date	Proposal Mapping
OPSS-ME-APPL-005	The Solution shall provide the capability to update the appeal record as changes occur (e.g. receipt of requested documents, continued coverage provided, hearing schedule and rescheduled dates, summary due and summary receipt dates, agency and client representatives, transfers within unit, notes page, status, dispositions, and other necessary updates).				
OPSS-ME-APPL-006	The Solution shall provide the capability to alert hearing officers, managers and support staff when set deadlines are approaching, and when deadlines are not met.				
OPSS-ME-APPL-007	The Solution shall provide a document management mechanism with workflow for storing and tracking electronic appeal files separately from the eligibility file. Appeal file shall include appeal request, appeal summary, copies of supporting documents, letters and forms, worker notes, and other related appeal information.				
OPSS-ME-APPL-008	The Solution shall provide the capability for automatic transmission of standard letters, faxes, and other correspondence (e.g. acknowledgement, notification of appeal, request for continued coverage, and requests for notices, good cause, power of attorney, and schedule letters, supplementation of the record, another opportunity, and interim and final disposition letters).

Manage Member Appeals Requirements

Requirement ID	Requirement	Compliant?	Availability	Date	Proposal Mapping
OPSS-ME-APPL-009	The Solution shall provide the capability to take appropriate action based on worker input (e.g., calculate decision deadlines, calculate due dates for requested documents, waive timely filing, calculate appellant delays, extend deadlines).				
OPSS-ME-APPL-010	The Solution shall provide the capability to store, track and generate documents and records related to Circuit Court appeals.				
OPSS-ME-APPL-011	The Solution shall provide the capability for clients and agencies to check the status of an appeal electronically while restricting access to other information as appropriate.				
OPSS-ME-APPL-012	The Solution shall support interfaces with VaCMS, Health Information Exchange (HIE), RightFax, Outlook, and other enterprise systems/applications related to public healthcare benefits.				
OPSS-ME-APPL-013	The Solution shall provide the capability for a system administrator to add and update fields, lists, user profiles, and screens as program changes occur.				
OPSS-ME-APPL-014	The Solution shall provide an audit trail at the field level that tracks appeal related input and changes by user, date, and time.				
OPSS-ME-APPL-015	The Solution shall provide the capability to generate appeal related reports (standard, ad hoc, monthly legal aid, other).

Manage Accounts Receivable Cases Requirements

Requirement ID	Requirement	Compliant?	Availability	Date	Proposal Mapping
OPSS-AR-CM-001	The Solution shall provide a case management system to support Third Party Liability (TPL), Estate Recovery as well as other recovery types.				
OPSS-AR-CM-002	The Solution shall create and manage receivables through the case management system.				
OPSS-AR-CM-003	The Solution shall support customized letter generation through the case management system.				
OPSS-AR-CM-004	The Solution shall provide the capability to support interfaces between the case management system and accounts receivable system. AR Invoices and the related customers that are created in the case management system are to be interfaced to the Financial Management Solution daily (customer IDs, customer name and address, the invoices will include the amount of the invoice, FFP dates, object codes, type of recovery case, finance charges, credit memos etc.) for cases established in the case management system. The daily interface process will exchange payments received and applied to these AR invoices in the Financial system and interface that payment to the AR invoice housed in the Case Management system.

Meeting Space Requirements

Requirement ID	Requirement	Compliant?	Availability	Date	Proposal Mapping
OPSS-MTG-001	The Contractor shall provide appropriate space to conduct meetings during the DDI phase that require DMAS staff attendance, including but not limited to JADs, walkthroughs, and team meetings. The space would ideally be within walking distance of the DMAS offices, but must be no more than 3 miles from 600 East Broad Street. Include the number of sessions, length of sessions, and capacity in your proposal. The proposed meeting space should be fully functional to ensure productivity, including but not limited to accommodate teleconferences, connectivity for WebEx meetings, projector equipment and white boards.
